## EVENT SUSTAINABILITY MANAGEMENT

## INTRODUCTION

# ISO 20121:2012

ISO 20121 is the internationally acknowledged best-practice standard for event sustainability management. It has been demonstrated to give a solid foundation for assisting an organization in tailoring its strategy and operations to produce a balanced approach to economic activity, environmental responsibility, and social growth.

Instead of an ad hoc approach, the successful deployment of an event sustainability management system would provide continuous performance improvement and methodical management of concerns. Organizations that embrace ISO 20121 must demonstrate that they are limiting possible negative impacts on the environment, communities, and local economies while increasing positive benefits and leaving a legacy to be proud of.

## The Advantages Gained By Our Accredited Clients Speak For Themselves:

## **ISO 20121 Standard. Our Figures Add Up To Long Term Growth.**

Our knowledge, skills, and motivation can make a significant difference in your organization:

1. We are forerunners. Back in 2007, we created the world's first event sustainability management standard, BS 8901, which is now ISO 20121. You can rely on us to maintain the quality and keep it current.
2. DTA is well-known for its pioneering work in this sector, continually offering new approaches to addressing the problems posed by ever-changing sustainability issues.
3. We are continuing to set the standard in environmental management, energy management, corporate social responsibility, product carbon footprinting, and biodiversity.
4. You may reap the benefits of working with DTA teams who have expertise assisting organizations in implementing ISO 20121 in a variety of industries. They may assist you in comprehending the difficulties and sharing their experience.
